Data Science for Scientists

Wrap-up

Gianluca Campanella
17th July 2018

The shortage of data scientists is becoming a serious constraint in some sectors.

— T. H. Davenport and D. J. Patil
Harvard Business Review (2012)

Isn't it all hype and no substance?

From the British Museum collection

Data-driven decision-making

Data-driven decision-making

You need to be able to…

- Identify business value
- Focus on the problem-solving
- Communicate effectively and manage expectations

Should you leave academia and go work as a Data Scientist?

One final word of advice

Find 'the thing' that motivates you
to practise and learn more…

Find 'the thing' that motivates you
to practise and learn more…

Then do it!

$$1 \square 4 = 5$$
$$2 \square 5 = 12$$
$$3 \square 6 = 21$$
$$8 \square 11 = \ ?$$
